

Project Development Phase

Model Performance Test

Date	1 October 2026
Team ID	SWTID-2026-4934
Project Name	Implement Client Script & UI Policy (Incident)
Maximum Marks	

Model Performance Testing:

Project team shall fill the following information in model performance testing template.

S.No.	Parameter	Screenshot / Values
1.	Data Rendered	Standard Incident [incident] table of the ServiceNow instance (41 active records in the list). No external dataset was used.  <i>Incident list showing INC0008111 with State In Progress</i>
2.	Data Preprocessing	Not applicable – data is entered and validated on the Incident form; no cleaning or transformation step. Validation is applied at entry by the UI Policy and Client Scripts.
3.	Utilization of Data Filters	UI Policy condition filter: Impact is 1 - High (Add Filter Condition). Policy actions apply while the condition is true and reverse when false.  <i>High Impact Control – condition and Reverse if false</i>
4.	DAX Queries Used	Not applicable (no Power BI). Equivalent logic is written as ServiceNow Client Scripts (JavaScript, g_form API):  <i>onChange script: Auto set urgency for high impact</i>
5.	Dashboard design	No of Visualizations / Graphs – 0 (no dashboard built; the Incident form and list are used).
6.	Report Design	No of Visualizations / Graphs – 0. A written project report with 13 screenshots documents the results.
