

Project Development Phase Model Performance Test

Date	1 October 2026
Team ID	SWTID-2026-4934
Project Name	Implement Client Script & UI Policy (Incident)
Maximum Marks	

Model Performance Testing:

Project team shall fill the following information in model performance testing template.

S.No.	Parameter	Values	Screenshot
1.	Model Summary	Rule-based ServiceNow configuration on the Incident table: UI Policy "High Impact Control" (Assignment group mandatory, Urgency read-only, Reverse if false) plus three Client Scripts (onChange, onSubmit, onCellEdit). No trained model is used; behaviour was verified through functional test cases. Note: If the Impact is High and Assigned to is filled in correctly, the record is saved; otherwise the save is blocked with an error message.	 High Impact Control UI Policy with its two actions
2.	Accuracy	Training Accuracy – Not applicable (no trained model). Validation Accuracy – Not applicable. Functional test result: All 5 functional test cases (TC-01 to TC-05) passed: 5 of 5 = 100% pass rate.	 TC-01: save blocked, error under Assigned to  TC-02: save succeeds with Assigned to filled
3.	Confidence Score (Only Yolo Projects)	Not applicable – this is not a YOLO / object-detection project. Rule outcome: error shown when Impact is High and Assigned to is empty; no error once Assigned to is filled.	 TC-04: State edit from list blocked with alert
